<p>outreach to under-served populations (African American, low income, public housing residents, etc.).</p>	<p>eating habits.</p>	<p>Brunch for community members and leaders featuring food prepared by the youth, comparing the traditional faire with the healthier choices.</p>		
<p>About-Face equips women and girls with tools to understand and resist harmful media messages that affect their self-esteem and body image. We do this through our three programs: Education Into Action media-literacy workshops; Take Action, which enables girls and</p>	<p>About-Face is requesting support from the African-American Health Disparity Project to teach media literacy² to at least 70 teenage females in San Francisco, with a focus on African-American teenagers. The objectives are for young women to discuss how media messages contribute to their sexual and other</p>	<p>The intended outcomes for the young women are: significantly higher self-esteem and ability to use critical-thinking skills beyond the duration of the workshop.</p>	<p>76 Women Served</p>	<p>\$7,000</p>

² The most direct way this project relates to the objects of AAHDP is through the violence aspect of our stated goals. Additionally, this project addresses overall health and well being in several indirect ways. By supporting young women making better choices and being analytical in their consumption of media images, they potentially become better equipped to help others in their community's as citizens, parents, etc.
